Cancer Legal Resource Center's Mission:

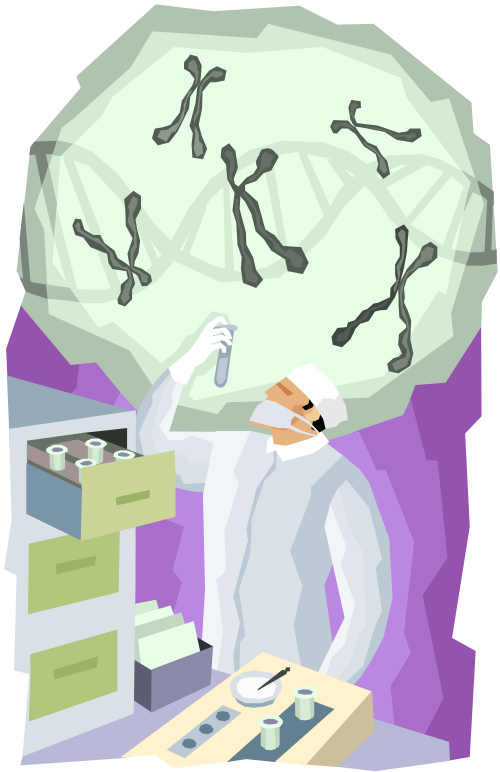

To provide information & resources on cancer-related legal issues to cancer patients, survivors, caregivers, health care professionals, employers, and others coping with cancer.

CLRC services are

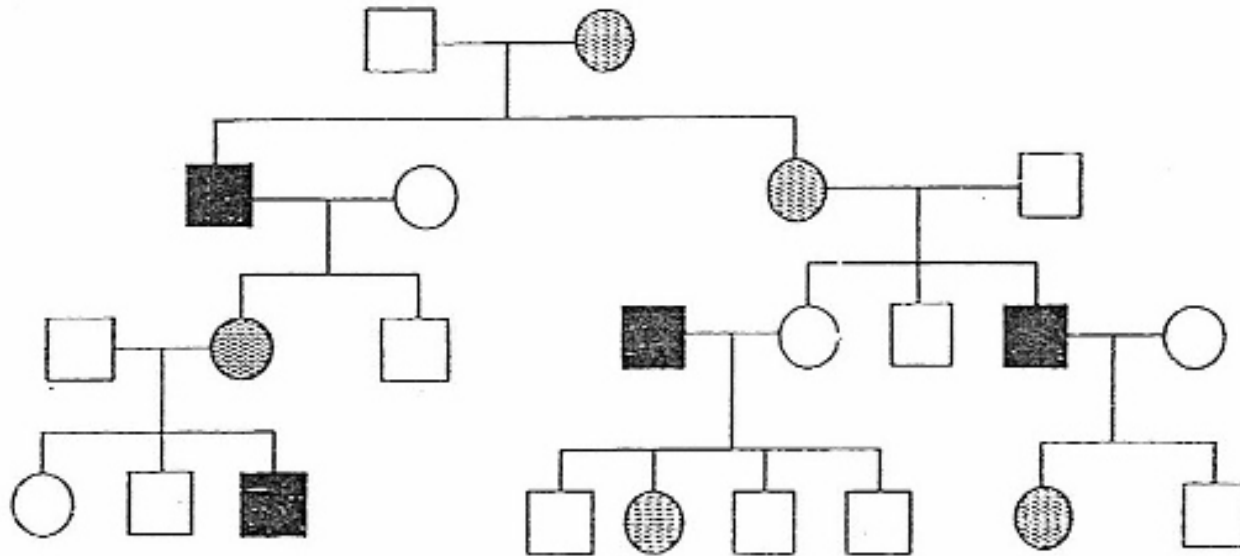

FREE!

Genetics and the Law

- Genetic Discrimination
- Access to Preventive Care
- Privacy

Cancer and Genetics

Approximately 5-10% of all cancers are hereditary

Genetic Testing

Finds associations with an increased risk of cancer, not cancer itself.

Ex: Lynch Syndrome, FAP

Speak to your genetic counselor or doctor

Genetic Counseling

Understand the medical, psychological and familial implications of genetics

Find a counselor:

Ask your doctor

Check your insurance coverage

National Society of Genetic Counselors

www.nsgc.org

Genetic Discrimination

Social or economic discrimination based on an individual's hereditary predisposition to disease.

Genetic Information Nondiscrimination Act (GINA)

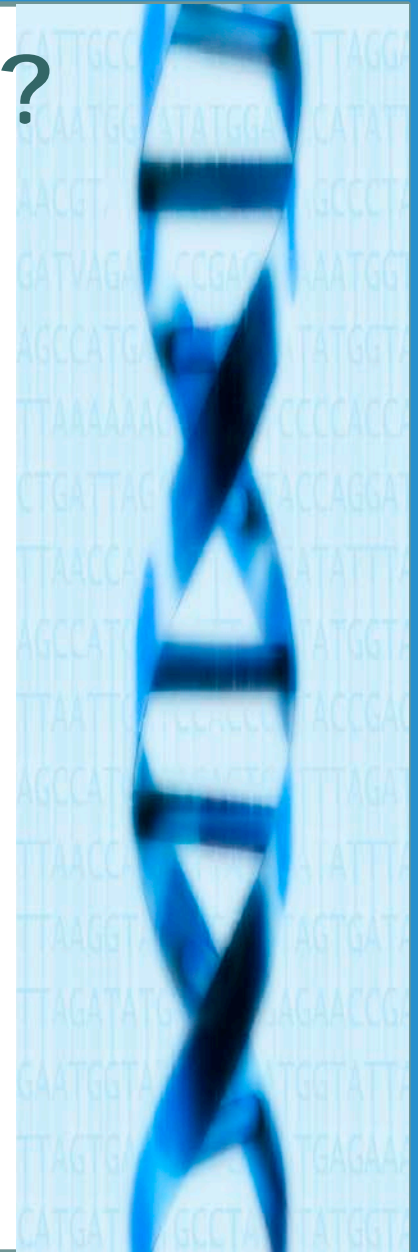

Prohibits genetic discrimination in
health insurance and employment

What is Genetic Information?

- Family medical history
- Genetic test results
- Genetic counseling or other genetic services
- Participation in genetic research

- Does NOT include current health status or manifested diseases

Nondiscrimination in Employment

State, local, and
private employers 15+

Employment agencies
and labor
organizations

Some federal
employees, but not all

NOT Indian tribes or
bona fide private clubs

Nondiscrimination in Employment

No discrimination against an employee based on genetic information

Can't collect an employee's genetic info (exceptions)

With limited exceptions, genetic information possessed by an employer must be kept confidential

Nondiscrimination in Health Insurance

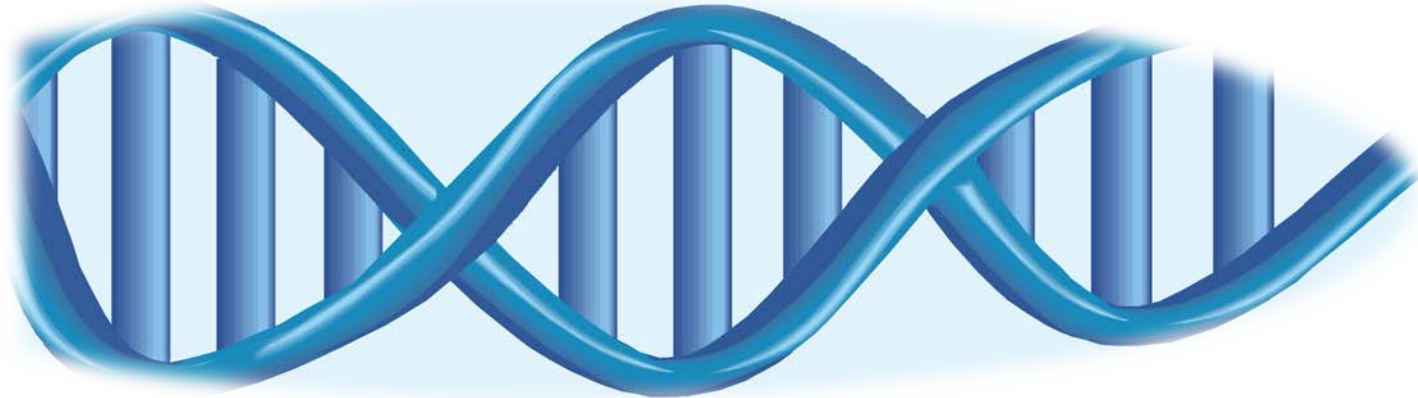

Group and individual health, and Medigap plans

Only applies to health insurance

Does not apply to Tricare, Veterans Health, the Indian Health Service, or the FEHBP

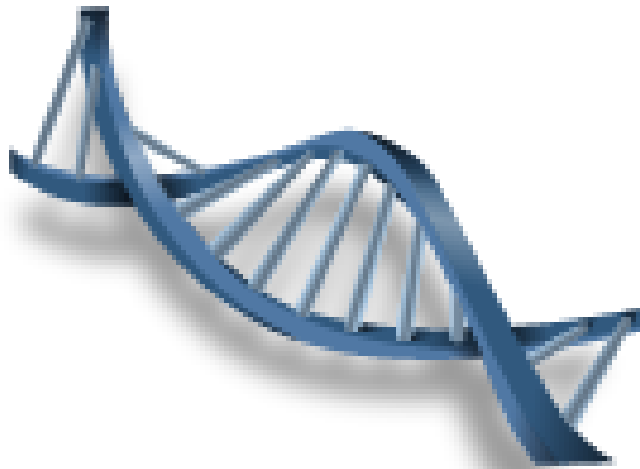

Does not apply to life, long-term care, or disability insurances

Nondiscrimination in Health Insurance

Genetic information cannot be considered a pre-existing condition in the absence of a diagnosis

Health insurers cannot restrict enrollment, adjust premiums, coverage amounts, or coverage terms based on genetic information

Can't collect an employee's genetic info (exception)
